Work Experience

DCC Services Pvt. Ltd.

CONSULTANT

Sector V, Kolkata

Mar. 2023 - Present

- Led a cross-functional team to architect and build a high-volume, event-driven data ingestion pipeline on **GCP**, processing over **1 million rows** every 20 minutes using Cloud Functions, Pub/Sub, and GCS triggers.
- Architected and built an enterprise-grade **Retrieval-Augmented Generation (RAG) system** using LlamaIndex and Pinecone to analyze complex technical documents (2000+ pages), automating critical data extraction to support business development.
- Designed and deployed a scalable **microservice architecture** on **Azure VMs** using Spring Cloud, Docker, and a centralized API Gateway, establishing secure inter-service communication and robust service discovery.
- Engineered a fully automated disaster recovery solution for mission-critical **MySQL on AWS RDS**, implementing incremental backups to S3 and orchestrating Point-In-Time Recovery (PITR) with **AWS Step Functions**, significantly reducing Recovery Time Objectives (RTO).
- Implemented a comprehensive authentication and authorization strategy for the microservice ecosystem, including enterprise **SSO integration** and JWT-based security protocols to protect sensitive endpoints and data.
- Demonstrated multi-cloud proficiency by leading the end-to-end design, development, and deployment of complex solutions across **AWS, GCP, and Azure**, ensuring optimal performance, security, and cost-efficiency.
